## Qualitative

### Comments -

- Engages well with students
- Dr. Brommage is a professor who goes beyond to help his students. He is understanding and is one of the best professors I have had. He made me use my brain and did not just give me the answers. Any time I had a question on the subject, without hesitation, he was there to help. He never made me feel like a nuisance. I would recommend him to any other students. He is the best!!!!
- If the student abides by the deadlines for assignments, then have the assignments graded in a timely manner in return.
- He is a very slow at grading and is constantly pushing due dates to a later time because of this. The content of the course can be hard to understand and very confusing.
- This was a tough course and this professor did the best he could to teach it online, he did a really good job but the material was super dry and dense. Making this course hard for me to fully grasp, I think he could improve on not being so grammatically correct; only because it felt like he was nitpicking and I rather be critic on my overall thought process that a sentence being awkward. Or the misplacement of a common or semi-colon.
