Qualitative

Comments -

- Professor Brommage was exceptional at giving feedback on our work. I feel like if any other teacher was teaching me Philosophy, I wouldn't have been able to accomplish this. Brommage helped me learn so much and taught me to broaden my perspective. He made audio clips, video clips, wiki pages, discussion boards, and emailed back promptly to his students. I feel lucky to have been in his class. As a beginner, I never thought I could accomplish the things I did in this class. I am amazed by his passion and his eagerness to help students. He went above and beyond for his students. Even though the material was challenging, it was made possible to acheive by Professor Brommage.
- The subject of this class is in itself is very difficult to understand for someone who doesn't have a background in the matter. That is based on the writings made by contemporary philosophers. While that makes it hard, it doesn't mean the professor doesn't provide all the materials needed, including video instruction that becomes helpful to understand better such concepts.
- Great Professor, really listens
- Dr. Brommage course was challenging but fair. He is everything you want from a philosophy professor.

What technology features in this course contributed to a good online learning experience? -

- Access to video lectures in their entirety 24/7; course wikis
- The professor used resources online to expand the interaction between students.
